UniDive 1st Training School - instructions for project presenters

This page contains the instructions for the authors of the selected projects for the Training School.

After the first meeting's successful Abstract presentation, we decided to keep the same threefold approach:

1. Posters displayed on provided panels and classical **poster sessions** will allow for parallel discussions.
2. Posters and abstracts will be uploaded on the event's webpage.

Posters should be of **A0 size portrait**. The template for your posters can be downloaded from

here

; you can use it or make your own poster from scratch but in any case, the poster should contain:

- UNIDIVE logo
- COST logo
- European Union logo
- title,
- name(s) of author(s),
- relevant to courses, by choosing course's icon presented in the 2nd slide of the template.

Please, make sure that all examples in various languages go along with English translations and/or explanations.

The **file names** should contain the project short title and the authors' names.

Remember to **bring your poster printed** (A0 portrait) to the meeting in Chisinau.

See you soon,

UniDive Training School Organizing Committee .
