

UniDive mailing lists

UniDive members communicate via several mailing lists. The domain of all lists is lism.univ-lorraine.fr. The **subscription** to these lists is handled by the Core Group upon the admission of a new MC or WG member. Subscription can be personally cancelled and **archives** can be accessed on the webpage of each list. The lists have the following composition:

- [unidive-all](#) - WG and MC members (see [archives](#))
- [unidive-mc](#) - MC members (see [archives](#))
- [unidive-core](#) - Core Group members (see [archives](#))
- [unidive-ext-core](#) - Extended Core Group members (see [archives](#))
- [unidive-wg1](#) - Working Group 1 members (see [archives](#))
- [unidive-wg2](#) - Working Group 2 members (see [archives](#))
- [unidive-wg3](#) - Working Group 3 members (see [archives](#))
- [unidive-wg4](#) - Working Group 4 members (see [archives](#))

The email addresses included in these lists are those used by the UniDive members in their [e-cost](#) profiles.

The administrator of the lists is the UniDive Science Communication Coordinator, **Olesea Caftanator** (see all contacts at the [official COST page](#)).

Policy for using UniDive mailing lists

The UniDive mailing lists are **not moderated**, i.e. all their members can post announcements (provided that they use their e-cost email addresses) and these are not manually filtered.

All members are therefore requested to be **careful about the contents** they are posting. Please, always keep in mind that these lists, especially [unidive-all](#) and [unidive-wg*](#), contain more than **250 email addresses** in total.

The Core Group recommends the following **policy** for the UniDive mailing lists:

- Publish only the announcements (about events, jobs, publications, etc.) **directly related** to the Action.
- This relationship should be clear **from the announcement**.
- Examples of relevant announcements include the following:
 - The announcement serves the realization of the **Work and Budget Plan** of UniDive

- The activity directly addresses the **main challenge** - reconciling language diversity with rapid progress in language technology
- The Action's **keywords** are relevant: universality, diversity, and/or idiosyncrasy
- Do not use unidive-all if unidive-wg or another **smaller list** is sufficient.
- If you publish a content on unidive-all, **do not duplicate** it on any other list.

Thank you for your understanding!
