About UniDive

The CA21167 COST Action, UniDive, is an interdisciplinary scientific network devoted to universality, diversity and idiosyncrasy in language technology.

- Its main objective is to **reconcile language diversity with rapid progress in language technology**.
- It embraces both **inter-** and **intra-language diversity**, i.e. a diversity understood both in terms of the differences among the existing languages and of the variety of linguistic phenomena exhibited within a language.
- It gathers about **395** interdisciplinary experts (linguists, computational linguists, computer scientists, psycholinguists, and industrials) from almost **40 COST countries** (36 of which are [COST countries](#)).
- It represents **dozens of languages** from many different language genera.
