

Call for abstracts, UniDive 1st general meeting, Paris-Saclay, 16-17 March 2023

UniDive is a COST action, i.e. a scientific network, dedicated to universality, diversity and idiosyncrasy in language technology. It is structured around 4 Working Groups:

- WG1: Corpus annotation
- WG2: Lexicon-corpus interface
- WG3: Multilingual and cross-lingual language technology
- WG4: Quantifying and promoting diversity

The [first general meeting](#) of the action will take place on **March 16-17, 2023** at **Paris-Saclay University** in France. We invite UniDive WG members to submit abstract proposals related to the scientific program of the WGs.

Proposals may describe diverse **types of contributions**: consolidated research, ongoing work, recently published or submitted work, (collaborative) project ideas, theoretical models, research questions, empirical results, negative results, resource and tool descriptions, etc.

A proposal should be **anonymous**, written in English and submitted in pdf only. It should include (on the title page) the list of the **relevant WGs**. It should not exceed **2 pages**, including figures and tables (bibliographic references may go beyond the 2-page limit). If **linguistic examples** from languages other than English are included, those should be glossed and translated into English, and an **extra half page** is allowed for this purpose.

For the sake of uniformity and easing the reviewers' effort, we encourage authors to use the Overleaf [Latex template](#). Other formats (not necessarily Latex-based) can also be used, provided that they conform to the following specifications: A4 paper, 11pt font, 1in margins.

The submission link is: https://openreview.net/group?id=UniDive/2023/General_Meeting_1

The reviewing process is **double-blind**. The selection of proposals will be done by UniDive Program Committee according to the following criteria:

- relevance to UniDive and the work program of its Working Groups (see pp. 18-20 of the [Memorandum of Understanding](#)),
- clarity
- diversity of the languages covered by the workshop program

The selected proposals will be presented at the 1st UniDive general meeting as posters and/or oral presentations.

At least one author per selected proposal will be reimbursed for their travel and stay. The co-authors of the selected abstracts should inform the meeting organizers by **February 17** at latest who will be the presenter to be reimbursed.

Important dates

- 2 Feb 2023: abstract submission deadline
- 16 Feb 2023: notification of acceptance
- 27 Feb 2023: final versions of abstracts
- 16-17 March 2023: UniDive 1st general meeting

The time zone for all deadlines is **Anywhere on Earth** (UTC-12). Due to the tight schedule, no extension of the submission deadline is foreseen.

Program Committee

- Verginica Barbu Mititelu, Research Institute for Artificial Intelligence (Romania)
- Anabela Barreiro, Universidade Técnica de Lisboa (Portugal)
- Olesea Caftanatov, Institute of Mathematics and Computer Science (Moldova)
- Marie-Catherine de Marneffe, Université catholique de Louvain (Belgium)
- Kaja Dobrovoljc, University of Ljubljana (Slovenia)
- Gülşen Eryiğit, Istanbul Technical University (Turkey)
- Paraskevi Giouli, Athena Research Center (Greece)
- **(co-chair)** Atul Kumar Ojha, University of Galway (Ireland)
- Styliani Markantonatou, Athena Research Center (Greece)
- Nurit Melnik, The Open University (Israel)
- **(co-chair)** Joakim Nivre, Uppsala University (Sweden)
- **(co-chair)** Carlos Ramisch, Aix-Marseille University (France)
- **(co-chair)** Agata Savary, Paris-Saclay University (France)
- Abigail Walsh, Dublin City University (Ireland)
- Alina Wróblewska, Polish Academy of Sciences (Poland)
- Daniel Zeman, Charles University (Czechia)
