

UniDive-related national projects

UniDive spin-offs

The COST philosophy is to offer a networking added value to nationally funded research. Therefore, it is highly recommended for all UniDive members to **apply for national funding** in order to implement the objectives of UniDive at the national level. **Letters of support** can be requested from the UniDive leaders to support the applications of such national spin-offs.

Other related national initiatives

- **Czech Republic:**
 - [LINDAT/CLARIN](#) – research infrastructure for sharing language data and tools; it has a large open repository of corpora in over 120 languages, including the UD and PARSEME corpora; it also provides on-line services for corpus query, syntactic parsing and translation.
- **France:**
 - [PARSEME-FR](#) (2016-2021) - spin-off of the PARSEME COST action; dedicated to parsing and MWEs in French
 - [SELEXINI](#) (2022-2026) - on semantic lexicon induction, including MWEs
 - [AUTOGRAMM](#) (2022-2026) - on induction of descriptive grammars from annotated corpora, with many under-resourced languages covered
 - [CREAM](#) (2021-2025) - on computer-assisted documentation of Creole languages
 - [LIFT](#) (Linguistique Informatique, Formelle et de Terrain) – a special interest group on NLP, formal linguistics and linguistic fieldwork; covers language universals and low-resourced languages.
- **Germany:**
 - [TuLaR](#) – an initiative for the development of language resources for 79 Tulpian languages.
 - [MWESemPre](#) - multiword expressions in syntactic and semantic parsing environments
- **Greece:**
 - [Philotis](#) (2021-2023) – EU- and Greece-funded project on creating language technology for Pomak, a minority language in Bulgaria, Greece and Turkey.
- **Norway:**
 - [INESS](#) – Norwegian corpus infrastructure with: (i) online corpus querying in 80 languages, including the UD corpora, (ii) documentation on how MWEs are annotated and queried in treebanks.
- **Portugal:**
 - [VOC.CPLP](#) – lexicons for 9 varieties of Portuguese, including the African dialects.
- **Serbia:**
 - [TESLA](#) (2024-)
- **Slovenia:**
 - [New Slovene Grammar](#)
 - [DSDE](#) - with WPs on morphology and MWEs.
- **Turkey:**
 - Multilingual Coreference Resolution - funded by TUBITAK (The Scientific and Technological Research Council of Turkey)
