UniDive WG3

Multilingual and Cross-Lingual Language Technology

Activities and Deliverables of WG3

- Activities:
  - Coordinate the development of tools leveraging universality and promoting diversity (with funding at national level)
  - Organize (at least two) multilingual evaluation campaigns (on parsing and MWE identification)
- Deliverables:
  - Centralized documentation of multilingual and cross-lingual NLP tools
  - Diversity benchmarks for NLP (through evaluation campaigns)
- Any other activities that we think are relevant and worth pursuing!

Plan for this meeting

- Introduction to WG3

- Documentation of multilingual tools (subgroup report)

- Multilingual evaluation campaigns (subgroup report)

- Coordination of development projects

- General discussion

Next WG3 online meeting: December 18, 11.00–12.00 CET
